**CANADIAN CERTIFIED
PHYSICIAN EXECUTIVE**
The Standard for Physician Leadership

CCPE is a nationally recognized credential awarded to physicians who have demonstrated excellence in leadership.

Launched in 2010 by the Canadian Medical Association (CMA) and the Canadian Society of Physician Executives (CSPE), this is the only program of its kind to recognize and celebrate physician leaders. Through a standards-based, peer-review process, the Canadian Certified Physician Executive (CCPE) identifies physicians who demonstrate the leadership skills and capabilities necessary to direct, influence and facilitate change in Canada's complex health care system.

The CCPE program operates on a cyclical, annual cycle — offering prospective candidates maximum flexibility and an opportunity to plan their leadership journey.

Physician leaders are encouraged to examine the 4-step model to achieving CCPE.

STEP 1: APPLY

If you are a member of both CMA and CSPE, a physician in good standing with your licensing body and you meet the additional requirements listed below, there are two (2) routes through which you can apply.

PMI route — 5 x 5 x 5 rule

Completion of 5 of CMA's Physician Management Institute (PMI) courses within the last 5 years, in addition to 5 years of accumulated health care experience and demonstrated accomplishments in a management/leadership position.

Practice eligibility route

Ten years or more of progressive health care leadership experience with continuing education achievements and significant leadership accomplishments demonstrated.

STEP 2: ASSESS

An assessment of leadership accomplishments occurs at three levels:

- i) by individual physician
- ii) by three referees
- iii) CCPE Peer Review and Assessment Panel.

STEP 3: CELEBRATE

Each year the cohort of successful CCPEs will assemble, celebrate and receive recognition at a national event.

STEP 4: RECERTIFY

Maintenance of certification is an important component and CCPE holders are required to undergo recertification every 5 years.
